Sleeve Instructions

- Signal sleeves must follow the rules outlined in Game Manual Part 1, section 7.5 1.
- Place vision content (images, etc.) in the white trapezoidal areas of the template, and Team 2. number in the designated Team number areas on the template.
 - Team Signal Sleeves must be fully completed (with vision content and Team numbers) prior to arriving at the Competition. Please refer to rule <SS04>
- Cut out the perimeter of the Signal Sleeve, including the tab 3.
- 4. Curl the Signal Sleeve into a cone with the tab under the far side of the template.
- The Signal Sleeve must be connected at each end 5.
 - Any tape or adhesive may be used to connect the ends as long as the method used does not damage the Signal.

IMPORTANT NOTE: Due to the fragile construction of the Signal Sleeve, damage should be anticipated
